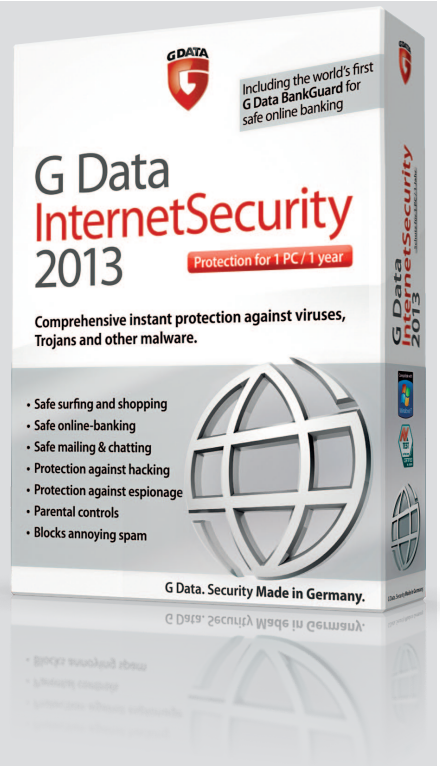
G Data InternetSecurity 2013

Comprehensive instant protection against viruses, Trojans and other malware.

G Data InternetSecurity 2013 offers the best possible instant protection against viruses, hackers, spam and all Internet threats through the use of modern technology. The integrated parental controls will protect your children from harmful web sites.

The protection is easily configured, runs in the background and doesn't slow your system down.



Including the world's first G Data BankGuard for safe online banking
G Data InternetSecurity 2013
Protection for 1 PC / 1 year
Comprehensive instant protection against viruses, Trojans and other malware.
• Safe surfing and shopping
• Safe online-banking
• Safe mailing & chatting
• Protection against hacking
• Protection against espionage
• Parental controls
• Blocks annoying spam
G Data. Security Made in Germany.

- **Instant protection when surfing:** G Data Web Cloud blocks dangerous websites
- **Instant protection when mailing:** G Data Mail Cloud blocks virus outbreaks immediately
- **Instant protection for Online-Banking:** BankGuard protects against dangerous Banking-Trojans
- **Instant protection through behaviour checking:** recognizes suspicious behaviour of new viruses
- **Optimal virus detection** using a combination of two virus scanning engines
- **Light on resources** due to fingerprinting and idle scan running when you take a break
- **Protection against hacking:** silent firewall protects without annoying queries
- **No spam** - annoying spam is blocked automatically
- **Parental control** prevents access to undesirable web sites
- Including AntiVirus for **Android™ smartphones**.

Contains a **12 month license** including hourly virus signature updates, software updates and version upgrades.
